

How to Use BookLingua

A step-by-step guide for authors

What is BookLingua?

BookLingua translates your book into up to 6 languages using a two-pass AI system — a full translation followed by an editorial review that refines tone, phrasing, and cultural accuracy. Every translation includes highlighted changes so you can see exactly what was refined, plus a set of Translation Notes explaining key decisions.

Step 1 — Upload Your Book

Click “**Upload Your Book**” on the homepage.

Supported formats: - EPUB (*recommended — best for formatting preservation*) - DOCX - PDF - TXT

File size limit: 50MB

Your formatting — chapter headings, paragraph breaks, italics — is preserved in the output.

Step 2 — Book Details

Fill in a few details so the translation is tailored to your book:

- **Title** — your book’s title
 - **Genre** — helps the AI match the right style and vocabulary (e.g. Romance, Thriller, Fantasy)
 - **Heat Level** (*Romance/Erotica only*) — choose from Sweet, Steamy, or Explicit so intimate scenes are translated accurately
 - **Book Setting** (*optional*) — describe the time period, world, or cultural context if relevant
 - **Special Instructions** (*optional*) — any specific requests, e.g. “keep character names in English” or “use formal register throughout”
-

Step 3 — Choose Your Languages

Select one or more of the 6 available languages:

Language	Market
 Spanish (Spain)	Spain — Castilian
 Spanish (Latin America)	Mexico, Colombia, Argentina and beyond
 French	300M+ speakers worldwide

 Portuguese (Portugal)	Portugal — European Portuguese

Bundle discounts are applied automatically when you choose more than one language:

Languages	Discount
2	12% off
3	25% off
4	30% off
5	35% off
All 6	40% off

Step 4 — Choose Your Tier

Pricing is based on word count, per language:
